

General Info

Shop Anything. Travel Anywhere.

Overview

Teleport is a safe, secure people-to-people community and trusted global marketplace connecting millions of international travelers and shoppers worldwide.

Our Mission is to democratize travel by empowering **anyone** to go **anywhere**. We do this by giving travelers the opportunity to safely and securely monetize their trips abroad by delivering items to trusted shoppers all over the world—from where they are to where they are going.

Teleport saves shoppers hundreds of dollars on the brands they love and earns travelers extra cash to explore the destinations of their dreams.

Never again pay outrageous shipping costs to expensive couriers like FedEx, UPS, DHL, etc. Teleport uses REAL people to deliver items directly from the USA to wherever you are in the world for less money and half the time.

Together, we are making the world a smaller place.

Shop the Globe. Wander the World. Spread the Love.

How Does Teleport Work?

Teleport incentivizes travelers to earn money by delivering (“teleporting”) items to verified shoppers wherever they are in the world. Shoppers use Teleport to gain direct access to popular U.S. brands like Apple, Nike, Bose and many more—but for less money, fewer taxes, and virtually no customs costs.

Once items have been delivered by the traveler to the shopper, the traveler is paid safely and securely through the Teleport platform. In the end, shoppers save money; travelers make money—everybody wins.

Mo' Money. Mo' Travel.

How Do I Travel (Make Money) w/Teleport?

Travelers earn money by delivering popular U.S. items such as the latest tech gadgets, designer apparel, and celebrity beauty products to shoppers all over the world. These items are often difficult for international shoppers to source locally or they simply cost too much money or take way too long to ship.

Travelers monetize extra space (or all of the space) in their luggage and carry-ons to deliver as many items as possible, earning as much money as possible. Once items have been delivered by the traveler to the shopper, the traveler is paid safely and securely through the Teleport platform.

How Do I Shop (Save Money) w/Teleport?

Shoppers all over the world use Teleport to save ***hundreds of dollars*** on popular brand-name items that cost far more overseas than they do in the United States.

Shoppers have direct access to more than 235 million U.S. products from retailers like Apple, Nike, Bose and more—but for less money, fewer taxes, and virtually no customs fees.

Plus, shoppers can forget about paying ridiculous shipping prices to traditional couriers like FedEx, UPS, DHL, etc. Teleport uses REAL people to deliver items directly from the U.S. to wherever you are in the world for less money and half the time.

For example, a new iPhone XS retails for \$1,149 in the U.S., but \$1,690 in Turkey—that's a 147% markup. By paying travelers a small fee to deliver duty-free items from the U.S., shoppers save big on retail costs, taxes, shipping fees and time.
